The Morris Super De-luxe Saloon

● EXPLANATORY

- Amendments to this List will be effected by means of reprinted pages. Should it be necessary to add an additional page or pages to interrupt the existing sequence of page numbers, the added pages will be numbered as in the following examples, which illustrate what would happen if it became necessary (A) to extend the information on a text page beyond the limits of that page or (B) to add an illustration page between existing illustration pages. Use of the decimal notation avoids the necessity of renumbering and reprinting all pages after the newly introduced page.

Example (A)

Existing text page	...	...	...	...	MA 5, MA 6, MA 7, etc.
Added text pages	...	...	...	...	MA 5-1, MA 5-2, MA 5-3.
Page sequence will then read	...	...	...	...	MA 5, MA 5-1, MA 5-2, MA 5-3, MA 6, etc.

Example (B)

Existing plate	...	...	...	...	A 5, A 6, A 7, etc.
Added plates	...	...	...	...	A 3-1, A 5-2, A 5-3.
Parts List will then read	...	...	...	...	A 5, A 5-1, A 5-2, A 5-3, A 6, etc.

- Where a modification to a part has taken place, or a new part issued replacing an original part, this is indicated by the inclusion of a dagger against the new or amended part.
- It will be noted that the items comprising an assembly (or sub-assembly) are offset for easy reference. This principle is followed in all Parts Lists, typical examples being given below.

Examples

Crankshaft	AMK 2254
Plug	AMK 97
Panel assembly—rear lower	CZA 418
Angle attachment—rear lower	CZA 147
Bracket—rear bumper support	CZA 161

● ABBREVIATIONS

Standard abbreviations are employed. The complete range of abbreviations covering all Lists is given below.

A Ambulance	ID Inside diameter	(RA) Rear axle number
A R As required	J Convertible	RH Right-hand
(B) Body number	K Truck	RHD Right-hand drive
C Chassis	L Hire Car	RHT Right-hand thread
(C) Car number	LC Low compression	S 4-door Saloon
(CB) Cab number	LH Left-hand	(S) Super de-luxe
(CN) Commission number	LHD Left-hand drive	2S 2-door Saloon
CP Chrome-plated	LHT Left-hand thread	T 4-seater Tourer
D Coupé	M Limousine	U Pick-up
(D) De-luxe	N 2-seater Tourer	UK Gt. Britain and North- ern Ireland
DC Double-coil	No. Number	U S Undersize
E G.P.O. Engineers	NSP Non-serviceable part	V Van
(E) Engine number	OD Outside diameter	W Dual-purpose (wood framing)
EXP Export	(OD) Overdrive number	Ws Dual-purpose (all- metal)
G G.P.O. Mail	O S Oversize	X Taxi
(G) Gearbox number	P Hard Top	
H Hearse	Q Chassis and Cab	
HC High compression	R Chassis and Scuttle	

B.M.C. Service Parts List Spine Labels

These have been designed with a colour code to enable Storekeepers to file or find Parts Lists readily. The system is as follows:

Coloured rectangles at top of spine

'Families' of passenger cars will always have a common colour (e.g. Lilac for the B.M.C. Minis).

Heavy commercial vehicles will have a common colour throughout—Red.

Second coloured rectangle

This indicates what the List deals with, as under:

Red ...	Mechanical.	Tan ...	Power Unit (Diesel).
Light Blue ...	Body.	Magenta ...	C.V. Chassis.
Brown ...	Power Unit (Petrol).	Deep Yellow ...	C.V. Body and Cab.

Coloured circles

These indicate the franchises covered by the List. For any particular franchise the circle will always appear at the same height on the spine label. Additionally, it will be coloured as under:

Blue ...	Austin.	Pink ...	Wolseley.
White ...	Morris.	Maroon ...	Vanden Plas.
Yellow ...	M.G.	Stone ...	Austin Commercial.
Grey ...	Riley.	Green ...	Morris Commercial.

Title-page

For easy identification when the List is lying flat the colour of the text of the title-page repeats that on the spine label, indicating whether the List is Mechanical, Body, etc.

IMPORTANT TO OWNERS

B.M.C. SERVICE PARTS

All authorized B.M.C. Distributors and Dealers are under contract to supply only B.M.C. Genuine Parts.

Look for
this sign
or label

Replacement parts that are not of genuine B.M.C. manufacture cannot be relied upon to be of B.M.C. specification, material, and workmanship, and therefore B.M.C. cannot be expected to extend their Warranty to vehicles which have been fitted with parts not of their manufacture.

A comprehensive range of EXCHANGE UNITS is available. Ask your Distributor or Dealer for full details.

In order to ensure prompt and correct execution of your orders it is essential to:

*STATE THE CAR, BODY, AND ENGINE NUMBERS, ETC., COMPLETE WITH
PREFIXES AND SUFFIXES.*

*GIVE THE PART NUMBER AND DESCRIPTION (PREFIX LETTERS TO PART
NUMBERS MUST ALWAYS BE QUOTED).*

Car Number Prefix Coding

The car number prefix comprises a series of letters and numbers, presenting in code the make, the engine type, the body type, the series, and, where applicable, left-hand drive.	
1st PREFIX LETTER—Name A—Austin M—Morris	2nd PREFIX LETTER—Engine type A
3rd PREFIX LETTER—Body type 2S—2-door Saloon	
4th PREFIX—Series of model 7—7th series (Austin) 4—4th series (Morris)	5th PREFIX (used to denote car is different to standard right-hand drive) L—Left-hand drive D—De-luxe S—Super De-luxe
A - A 2S 7 - 1 0 1 CODE EXAMPLE - Serial number 7th series 2-door Saloon - A'-type engine - Austin	

Always quote these prefixes with Car Numbers

Location of Unit Numbers

The **Car Number** is stamped on a plate secured to the front door pillar or between the radiator and the wing valance

The **Body Number** is stamped in one of four positions shown above: No. 1 dash panel (upper), No. 2 dash cross-member, No. 3 grille panel stiffener, or No. 4 front floor—left-hand side

Identification Data

Model	Car Number Prefix	Commencing		Finishing	
		Car No.	Body No.	Car No.	Body No.
Austin Mini Saloon	A-A2S7	101	101		
Morris Mini Saloon	M-A2S4	101	101
